

GEMINI 2000

CONTACTLESS EMV PAYMENTS

Fully certified contactless payment solution designed for EV chargers

Visa and Mastercard acceptance, including Google Pay and Apple Pay

Fast transaction processing, detailed reporting and easy refunds

Highly secure system certified to Payment Card Industry standards

Fast delivery, working directly with UK manufacturer

TAP INTO CONTACTLESS

Tap into the potential of contactless with Gemini 2000, a specialist manufacturer based in the United Kingdom. For over 25 years, we've helped businesses large and small offer seamless contactless acceptance in their electric vehicle chargers, barriers, ticket kiosks, vending machines, and more.

Contactless reader

The uCrypto contactless reader offers acceptance of bank cards, smartphones and wearables, as well as membership cards. The reader comes with a bright OLED display and choice of robust flush and surface mount casings, including a waterproof option.

Telemetry terminal

The telemetry terminal is an open Linux platform that hosts business logic such as authorise payment and complete a transaction based on electricity used or time spent. The terminal also provides connectivity options such as Ethernet, WiFi or 4G.

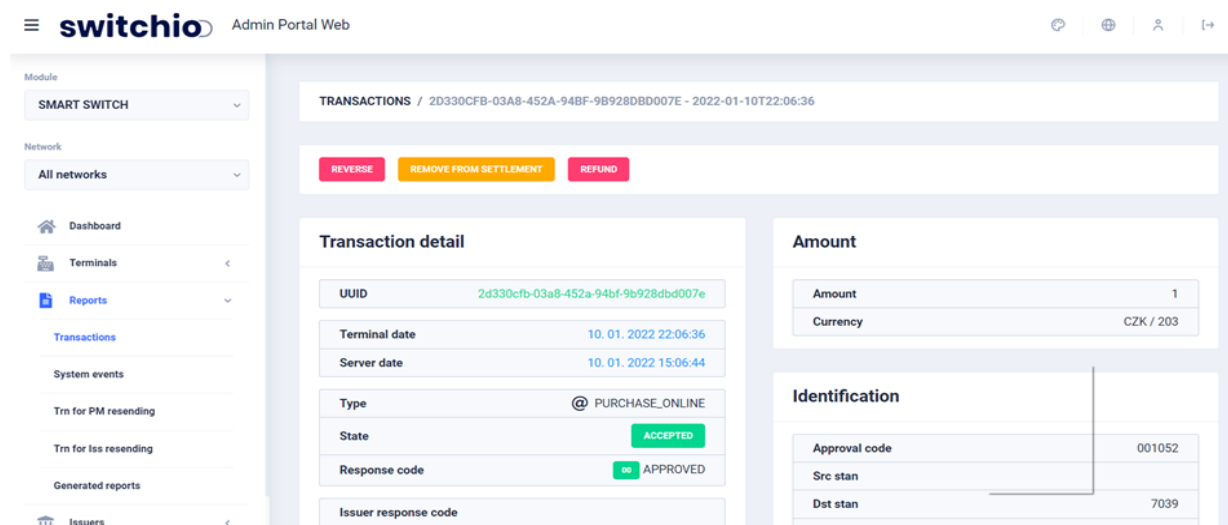

This two-part system design – with separate reader and telemetry – allows you to position modules more conveniently inside the charger enclosure and reduces costs if replacements are ever needed. All hardware is designed and built in the UK and can be delivered fast to customers both locally and globally.

SALES PORTAL

Reporting

Merchants have 24/7 access to real time reporting via the Switchio platform. Log in to generate terminal sales reports or drill down into individual transactions at a click of a button.

Refunds are fast and easy to do – email us or give us a call with the transaction details and we'll process them for you.

GETTING STARTED

Test and development kit

Evaluate the Gemini 2000 solution with our £199 starter kit. This includes a reader, terminal, WiFi module, ICC test card and set up in our test environment. Contact us to order.
